## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of claims 1-48 in the reply filed on May 25, 2005 is acknowledged.

### ***Double Patenting***

2. Claim 4 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 2. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 5 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 5 and 6 are dependant from objected claim 4, which is a duplicate of claim 2. The disposition of claims 5 and 6 can only be determined after appropriate correction of the redundancy of claims 2 and 4.

***Allowable Subject Matter***

5. Claims 1, 2 and 7-48 are allowed.

6. The following is an examiner's statement of reasons for allowance: the apparatus for arranging components into an assembly including the unique features of 'a second outfeeder conveyor means for receiving from the distribution means selected layers of successive components wherein the distribution means received the successive layers of components from a first conveyor means' in combination with the rest of the claim language is not taught or fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

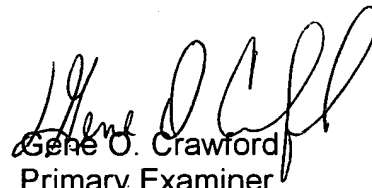

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following are cited to show the art with respect to brick stackers having automatic row forming: Milholen, Leeds et al., Kamphues, and Jones.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gene O. Crawford whose telephone number is 571/272-6911. The examiner can normally be reached on Monday thru Thursday.
